

## Press Release

### **SMI announces the appointment of Jung Won Corporation (JWC)**

<http://www.jwc.co.kr>

### **as its representative in Korea**

Structured Materials Industries, Inc. (SMI) has appointed Jung Won Corporation (JWC), [www.jwc.co.kr](http://www.jwc.co.kr) as its representative in Korea for selling MOCVD, PECVD, ALD and related equipment. JWC has a long history in the semiconductor market in Korea, with sales to most of the major equipment companies. SMI has a long history in advanced and complex oxide MOCVD system building and in process/device development. More recently, SMI has opened its in-house applications laboratories for customer use and branched into reactor production for GaN and other materials.

Structured Materials Industries, Incorporated is focused on being the leader in Metal Organic Chemical Vapor Deposition (MOCVD) and related technologies. SMI offers for sale: systems, components, materials, and process development services. SMI has: an in-house applications laboratory featuring multi-reactor deposition systems and analytic capabilities, developed a range of strategic partnerships to develop and implement MOCVD technology and looks forward to continuing to grow and expand upon mutually advantageous relationships.
